## RESEARCH EXPERIENCE

---

**Nepalese Army Institute of Health Sciences**

*Kathmandu, Nepal*

Symptom Management in Women with Breast Cancer and Chronic Illnesses

*Biobehavioral Research Assistant*

July 2023- Nov 2023

- Explored symptom management strategies, including complementary modalities, for women with breast cancer and other chronic illnesses, demonstrating a holistic approach to healthcare
- Engaged in biobehavioral research, focusing on molecular markers of inflammation and genetic markers. This involvement showcased a multidimensional understanding of the biological and behavioral aspects of chronic illnesses.

**Vayodha hospital pvt. ltd**

*Kathmandu, Nepal*

*Research Intern, Hepatology Division,*

may 2020 - Oct 2021

- Investigated the impact of various treatment modalities on the quality of life in patients with chronic liver diseases, emphasizing a patient-centered approach
- Assisted in the analysis of patient data, contributing to the identification of patterns and trends that influenced treatment outcomes.

- Collaborated with healthcare professionals to develop patient education materials, bridging the gap between research findings and practical applications in clinical settings.
